

Business & Technical Training College

“Put your FUTURE in GOOD Hands”

BTT will work with every student to develop their skills, to make them job ready. BTT classes are small therefore you will receive more personalized attention from the instructor.

Configuring Exchange Server 2010 Certification Training

Students will learn hands-on knowledge and skills to configure and manage an Exchange Server 2010 messaging environment. No previous Exchange Server experience necessary, but a student will need some previous knowledge managing Windows Server 2008 and Active Directory Services. Students will gain necessary skills to configure an Exchange Server 2010, as well as provide guidelines, best practices and considerations that will help you optimize your Exchange Server deployment including installation and Mailbox server components. You will be preparing for certification exam: 70-662.
